SUBJECT INDEX, VOLUME 38

Abstracts of Volunteer Papers
Analysis of the Analgesic Efficacy and Cost Effectiveness of Long-Acting Local Anesthetics in Outpatient Third Molar Surgery, Neal J, Halliday R, Welch T, 190
A Comparison of Two General Anesthetic Techniques: Propofol versus Methohexital and Isoflurane, Werner ME, Ringgold CL, Bach DE, Newhouse RF, Perkins SJ, 190
Dental Anxiety and Oral Health in Young Israeli Male Adults, Kaufman E, Sher Rand R, Gordon M, Sgan Cohen HS, 190
The Effect of Local Anesthetic Injections on the R-R Interval During Psychosedation, Kumiko O, Matsuo K, Furusawa H, Inokuchi T, 189
Evaluation of Minimal Flow Nitrous Oxide/Oxygen Anesthesia for Oral and Maxillofacial Surgery, Lin C-C, 191
General Complications of Local Anesthetics, Especially Side Effects of Local Anesthetics—A Randomized, Double-Blind Study of 2000 Patients, Hinterthan A, Khoury F, 189
The Influence of Four Different Local Anesthetics on Blood Pressure and Pulse Rate—A Randomized, Double-Blind Study of 2000 Patients, Khoury F, Budde L, 189
Local Anesthetic Effects in the Presence of Chronic Osteomyelitis (Necrosis) of the Mandible: Implications for Localizing the Etiologic Site(s) of Referred Trigeminal Pain, McMahon RE, Griep J, Marfurt C, 189
Medical History Questionnaire in Dental Office, Jakobs W, Jakobs E, Cichon K, Kruesser B, 190
Patient Controlled Analgesia in the OMFS Patient Population, Lau MA, Welch TB, 191
Preliminary Evaluation of a Newly Designed Nasal Tracheal Tube, Zak MJ, Boyd SB, 191
Adult Sedation: Oral, Rectal, IM, IV, Giovannitti JA, Trapp LD, 154
Adverse Reactions to Midazolam and Ketamine Premedication in Children, Roelfse JA, Van der Bijl P, (correspondence) 73
Airway obstruction, anatomical basis for opening, 31
Alkylophenols, *See also* Propofol
α-Adrenergic receptors, vascular effects of nitrous oxide and, 57
Ambulatory general anesthesia, for dentistry, 172
Analgesia
diffusion hypoxia after nitrous oxide in dental, 21
efficacy of long-acting local anesthetics in outpatient third molar surgery (abstract), 190
nitrous oxide for, 142
peripheral beta-endorphin and, 75
with rectal ketamine in the *Macaca fuscata* monkey, 50
Analysis of the Analgesic Efficacy and Cost Effectiveness of Long-Acting Local Anesthetics in Outpatient Third Molar Surgery, Neal J, Halliday R, Welch T (abstract), 190
An Anaphylactic Reaction to Protamine Sulfate, Roelofse JA, Van Der Bijl P, 99
Anatomical Basis for Opening the Obstructed Airway, Jaffe M (correspondence), 31
Anesthesia
dental effect of electronic on pain threshold and pain tolerance levels of teeth subjected to stimulation with an electric pulp tester, 45
evaluation of 4% prilocaine with 1 : 200,000 epinephrine and 2% mepivacaine with 1 : 20,000 levonordefrin compared with 2% lidocaine with 1 : 100,000 epinephrine for inferior alveolar nerve block, 84
general for ambulatory, 172
local anesthetics, 128
morbidity or mortality from, 39
nitrous oxide, 142
with rectal ketamine in the *Macaca fuscata* monkey, 50
propofol in malignant hyperthermia, 96
Anxiety, *See* Dental anxiety
Apprehension, conscious sedation in dental, 154
Argon laser-induced sensory and pain thresholds on oral mucosa and skin, variability of, 79
Articaine, influence on blood pressure and heart rate (abstract), 189

Behavioral techniques in managing pain and anxiety in the dental patient, 120
Benzodiazepines
for conscious sedation, 154
reversal of effects by flumazenil, 12
Beta-adrenergic actions of epinephrine, influence of propranolol on, 217
Beta-endorphin
effect of nitrous oxide on concentrations in the pituitary, 206
peripheral and pain modulation, 75
Book review, *Introduction to Dental Local Anesthesia*, Sisk AL, 29
Brain, effect of nitrous oxide on concentrations of opioid peptides, substance P, and LHRH in, 206
Buprenorphine, epidural for relief of head and neck cancer pain, 69

Cancer pain, epidural buprenorphine or morphine for relief of head and neck, 69
Capnography, alternative methods to, 24
Carbon dioxide detector, disposable end-tidal, 24
Cerebral palsy, transient suppression of involuntary movements during dental treatment, 200
Clinical Study of Diffusion Hypoxia After Nitrous Oxide Analgesia, Quarnstrom FC, Milgrom P, Bishop MJ, DeRouen TA, 21
Cocaine, development of, 128
A Comparison of Two General Anesthetic Techniques: Propofol versus Methohexital and Isoflurane, Werner ME, Ringgold CL, Bach DE, Newhouse RF, Perkins SJ (abstract), 190
Conscious sedation
dental, 154
flumazenil efficacy in recovery from benzodiazepine, 12
levels, monitoring by EEG spectral analysis, 227
nitrous oxide, 142
pharmacological considerations for, receptor function and, 33

New Trends in Anesthesiology Reflect Shift Toward Outpatient Surgery, Survey Shows (announcement), 32
Nitrous Oxide, Jastak JT, Donaldson D, 142
Nitrous oxide
  effect on concentrations of opioid peptides, substance P, and LHRH in the brain and β-endorphin in the pituitary, 206
  health hazards of, 1
  macro- and microvascular effects in the rat, 57
Nitrous oxide/oxygen
  diffusion hypoxia after, 21
  evaluation of minimal flow for oral and maxillofacial surgery (abstract), 191
  inhalation, reduction of involuntary movements in cerebral palsy dental patient, 200
Norepinephrine, administration during local anesthesia, effects on left ventricular diastolic function, 221

Obstruction of Naso-Endotracheal Tube by Inferior Turbinate, Bandy DP, Theberge DM, Richardson DD, 27
Opioid(s)
  beta-endorphin level effects, 75
  nitrous oxide effect on concentrations in the brain, 206
Opioid receptors, vascular effects of nitrous oxide and, 57
Oral health in young Israeli male adults (abstract), 190
Oral premedication for sedation, 154
Oral surgery
  evaluation of minimal flow nitrous oxide/oxide anesthesia for (abstract), 191
  intramuscular meperidine versus patient controlled analgesia (abstract), 191
Orofacial region, variability of argon laser-induced sensory and pain thresholds on oral mucosa and skin, 79
Orthognathic surgery, intramuscular meperidine versus patient controlled analgesia (abstract), 191
Osteomyelitis of mandible, local anesthetic effects in presence of (abstract), 189
Outpatient dental anesthesia, methohexital for, 195
Outpatient surgery
  analgesic efficacy and cost effectiveness of long- acting local anesthetics in third molar (abstract), 190
  shift toward, 32
Oxygen saturation, nitrous oxide-oxygen effects on, 21

Pain
  control in dental, 119
  electronic dental anesthesia effect on threshold and tolerance levels of human teeth subjected to stimulation with an electric pulp tester, 45
  epidural buprenorphine or morphine for relief of head and neck cancer, 69
  peripheral beta-endorphin and modulation, 75
  psychological/behavioral techniques in managing dental, 120
Pain thresholds, variability of argon laser-induced on oral mucosa and skin, 79
Paradoxical reaction, with midazolam, flumazenil reversal of, 65
Patient Controlled Analgesia in the OMFS Patient Population, Lau MA, Welch TB (abstract), 191
Pediatric anesthesiology, adverse reactions to midazolam and ketamine premedication, 73
Pediatric dentistry, conscious sedation and analgesia with rectal ketamine in the *Macaca fuscata* monkey, 50
Peripheral Beta-Endorphin and Pain Modulation, Hartwig AC, 75
Personnel, nitrous oxide health hazards in dental, 1
Pharmacological Considerations for Conscious Sedation: Clinical Applications of Receptor Function, Becker DE, 33
Pituitary, effect of nitrous oxide on β-endorphin concentrations in, 206
Preexisting conditions, morbidity and mortality from office anesthetic procedures and, 39
Preliminary Evaluation of a Newly Designed Nasal Tracheal Tube, Zak MJ, Boyd SB (abstract), 191
Premedication, adverse reactions to midazolam and ketamine in children, 73
Preoperative evaluation, medical history questionnaire in dental office (abstract), 190
Prilocaine
  4%, with 1:200,000 epinephrine compared with 2% mepivacaine with 1:20,000 levonordefrin and 2% lidocaine with 1:100,1000 epinephrine for inferior alveolar nerve block, 84
  influence on blood pressure and pulse rate (abstract), 189
Procaine, development of, 128
Propofol (Diprivan), versus methohexital and isoflurane (abstract), 190
Propofol for Anesthesia in a Patient Susceptible to Malignant Hyperthermia, Rosenberg MB, 96
Propranolol, influence on cardiovascular effects and plasma clearance of epinephrine, 217
Protamine sulfate, anaphylactic reaction to, 99
Psychological/Behavioral Techniques in Managing Pain and Anxiety in the Dental Patient, Pawlicki RE, 120
Psychosedation, local anesthetic injection effects on R-R interval during (abstract), 189

Pulp tester, effect of electronic dental anesthesia on pain threshold and pain tolerance levels of human teeth subjected to, 45
Pulse rate, influence of local anesthetics on (abstract), 189

R-R interval, effect of local anesthetic injections during psychosedation (abstract), 189
Receptor
nitrous oxide vascular actions and, 57
pharmacological considerations for conscious sedation and, 33
Rectal sedation, 154
Report of the Sixth International Dental Congress, Yagiele JA, 108
Reversal of Central Benzodiazepine Effect by Intravenous Flumazenil, Clark MS, Lindenmuth JE, Jafek BW, Fryer GE Jr., Goldberg JR, 12

Sedation, *See* Conscious sedation; Psychosedation
Sensory threshold, variability of argon laser-induced on oral mucosa and skin, 79
A Simple, Disposable End-Tidal Carbon Dioxide Detector, Rosenberg M, Block CS, 24
Skin, variability of argon laser-induced sensory and pain thresholds on, 79
Somatosensory evoked potentials, flumazenil antagonism of suppressive effect of midazolam on, 17
Stress response, during oral surgery, 154
Substance P, effect of nitrous oxide on concentrations in the brain, 206
Summary of the Scientific Literature for Pain and Anxiety Control in Dentistry, Hassett LC (bibliography), 101
Surgery, *See* specific type of surgery

Thiopental, diffusion hypoxia after nitrous oxide analgesia and, 21
Toxicity, nitrous oxide, 1
Tracheal tube, *See* Nasal tracheal tube, Naso- endotracheal tube
Transient Suppression of involuntary Movements in Cerebral Palsy Patients During Dental Treatment, Kaufman E, Meyer S, Wolnerman JS, Gilai AN, 200
Trigeminal pain, localizing etiologic sites of referred (abstract), 189

Variability of Argon Laser-Induced Sensory and Pain Thresholds on Human Oral Mucosa and Skin, Svensson P, Bjerring P, Arendt-Nielsen L, Kaaber S, 79
Vascular actions of nitrous oxide in the rat, 57
